

GENERAL

Important:

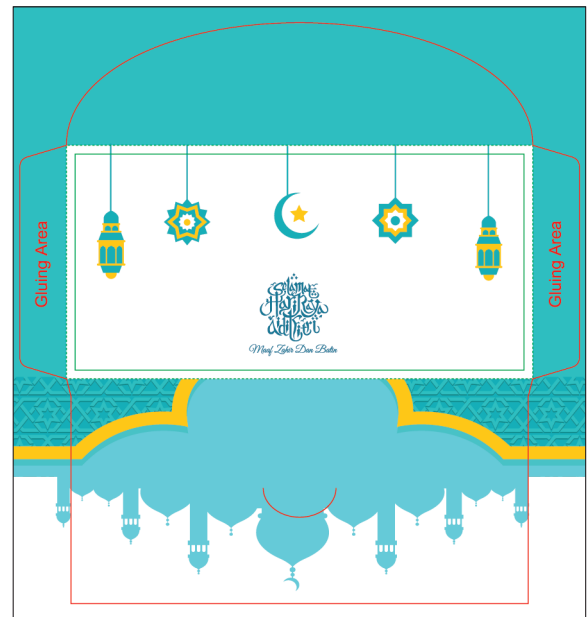

- 1a. For SL1 in your artwork, please allow to full in artwork until black box as shown below in Diagram 1.
- 1b. For SL2 in your artwork, please allow to full in artwork until black box as shown below in Diagram 2. For back design, please rotate the artwork.
2. It is strongly advisable to use the same background colour for front panel, back panel or slit flap to avoid colour contrast after folding.
3. If your design contains different background colour for front panel, back panel or slit flap, you are **REQUIRED** to allow 1mm bleed. The outcome is shown below in Diagram 3. Hence, Member shall notice this risk and FLEXISPINT shall not be held responsible for the visibility of the colour variance between the panels of the money packet.
